

Hotmelt adhesives for heat sensitive label to be used without release liner

LABELMELT® BL-8506A

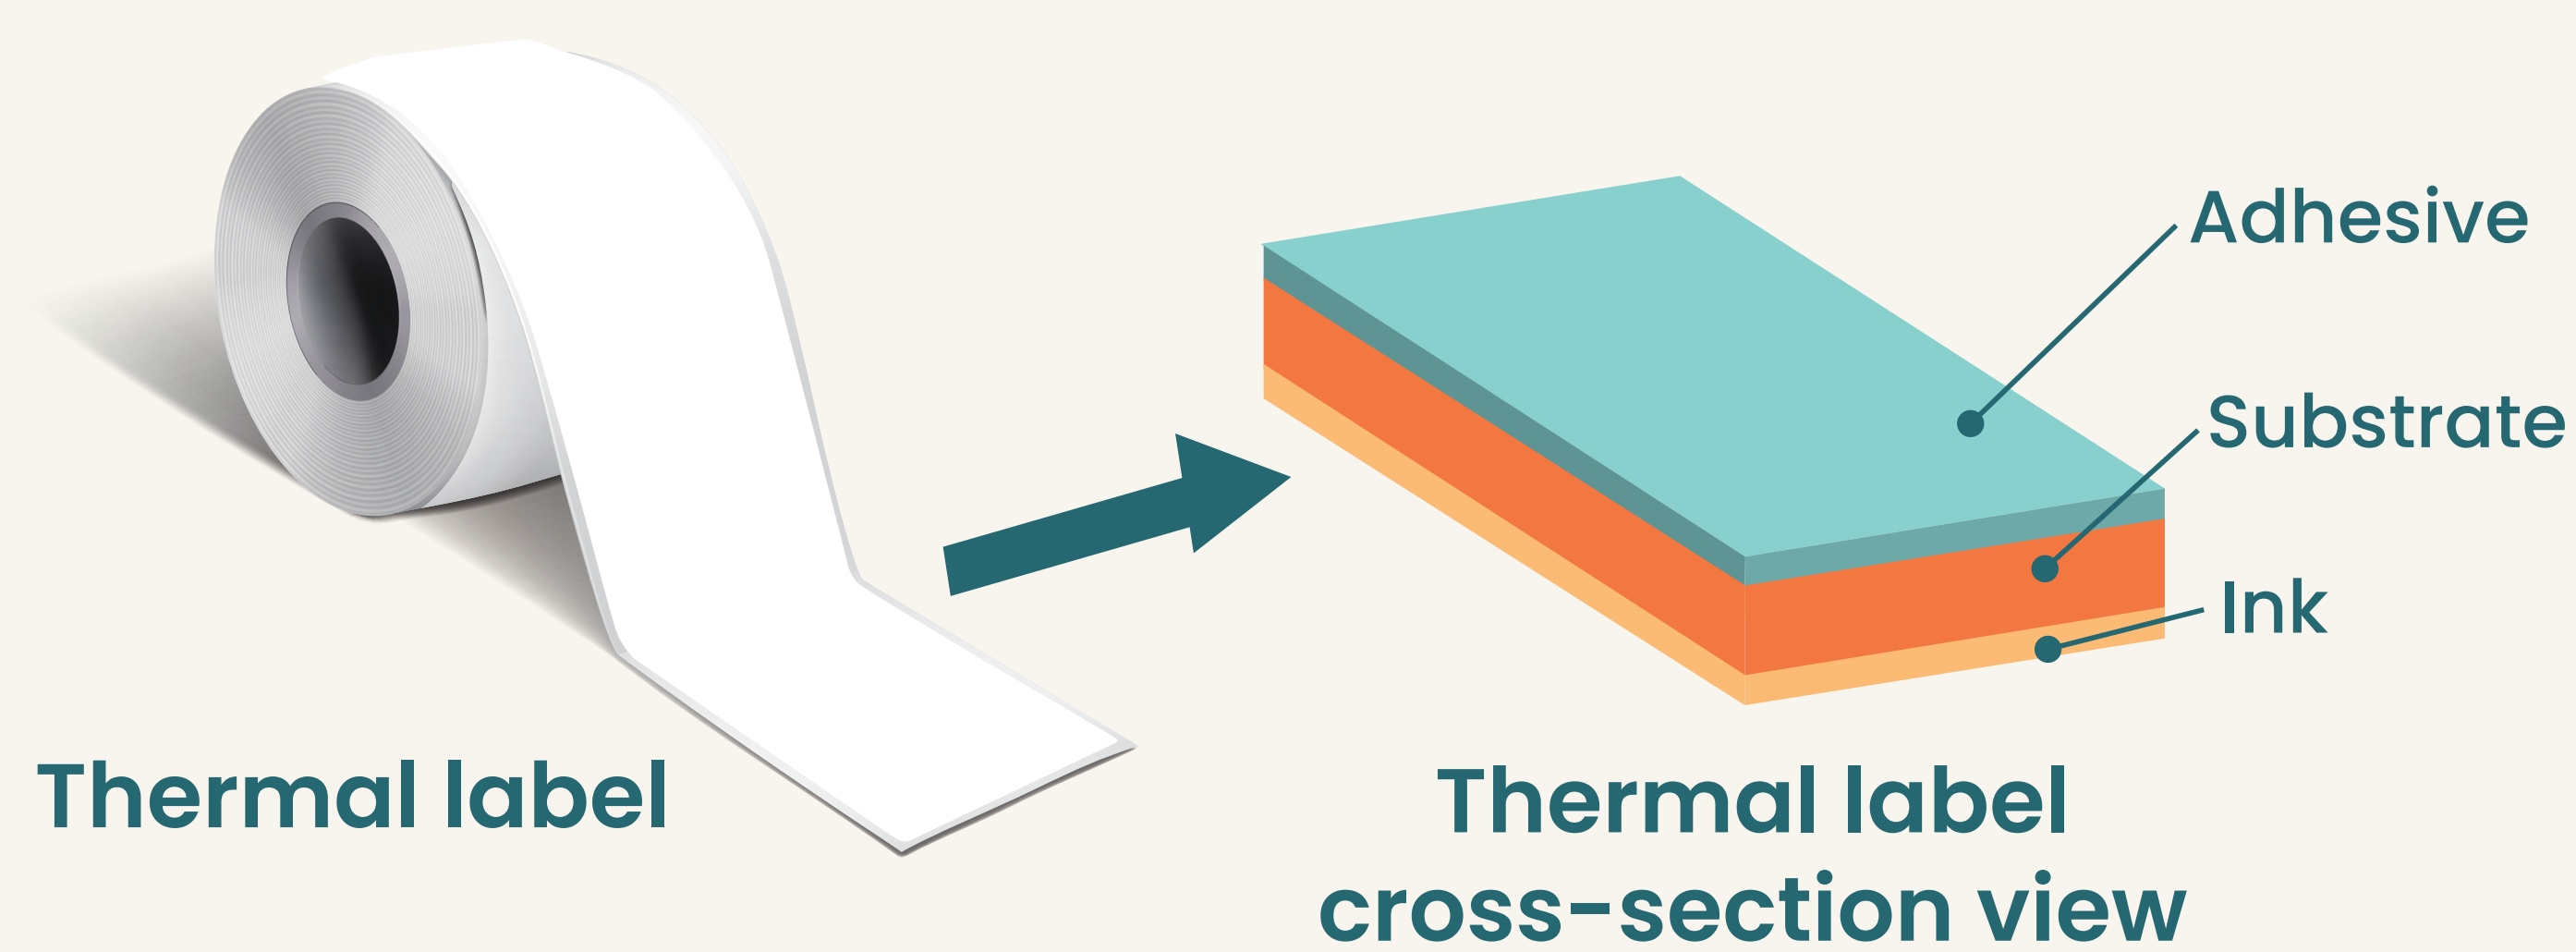

- Reduce waste by eliminating the release liner.
- Stable adhesive with long pot life.
- Environmentally friendly, solvent-free, more than 50% biomass contents, without DCHP.

Applications

- To be used on glass or plastic bottles (seasonings, daily necessities, pharmaceuticals, etc.)

Structure

※Thermal printing labeling is required

Physical properties

Substrate	Adherend	LABELMELT BL-8040B (under development)
Paper	Glass	Paper failure
	CPP	Paper failure
	PET	Paper failure
OPP	Glass	2.2 (cohesive failure)
	CPP	2.5 (cohesive failure)
	PET	2.9 (cohesive failure)
PET	Glass	4.9 (cohesive failure)
	HDPE	3.5 (cohesive failure)
	PET	4.1 (cohesive failure)

※Single plate strength [unit: N/15mm], sealing conditions: 100°C, 0.1Mpa, 0.3 seconds
