

# Safe adhesives for the global market

## Adhesives compliant with the European regulations on plastic packaging

- In Europe, in addition to EU No. 10/2011, the regulations for new substances of concern have been strengthened.
- Free of any concerns and with the same performance as conventional products.
- Also contributes to reducing environmental impact (high solids concentration/solvent-free type)

## Laminating adhesive lineup

※Checking compliance with REACH

※1 New substances of concern: Organic Tin compounds, Epoxy silane
