

# Water-repellent coating for paper

## Z331 water-repellent coating

- Fully water-based (VOC free)
- Achieving a repellency of R10 (Japan Tappi No. 68) with a very low coating weight

### Applications

- Refrigerated food, wrap-around labels, lids (paperization of the food packaging)
- Paper containers, paper cups (eliminating PE from the paper packaging)

Achieved maximum repellency R10
