

Solutions for solvent-free lamination process

ECOAD® Smart

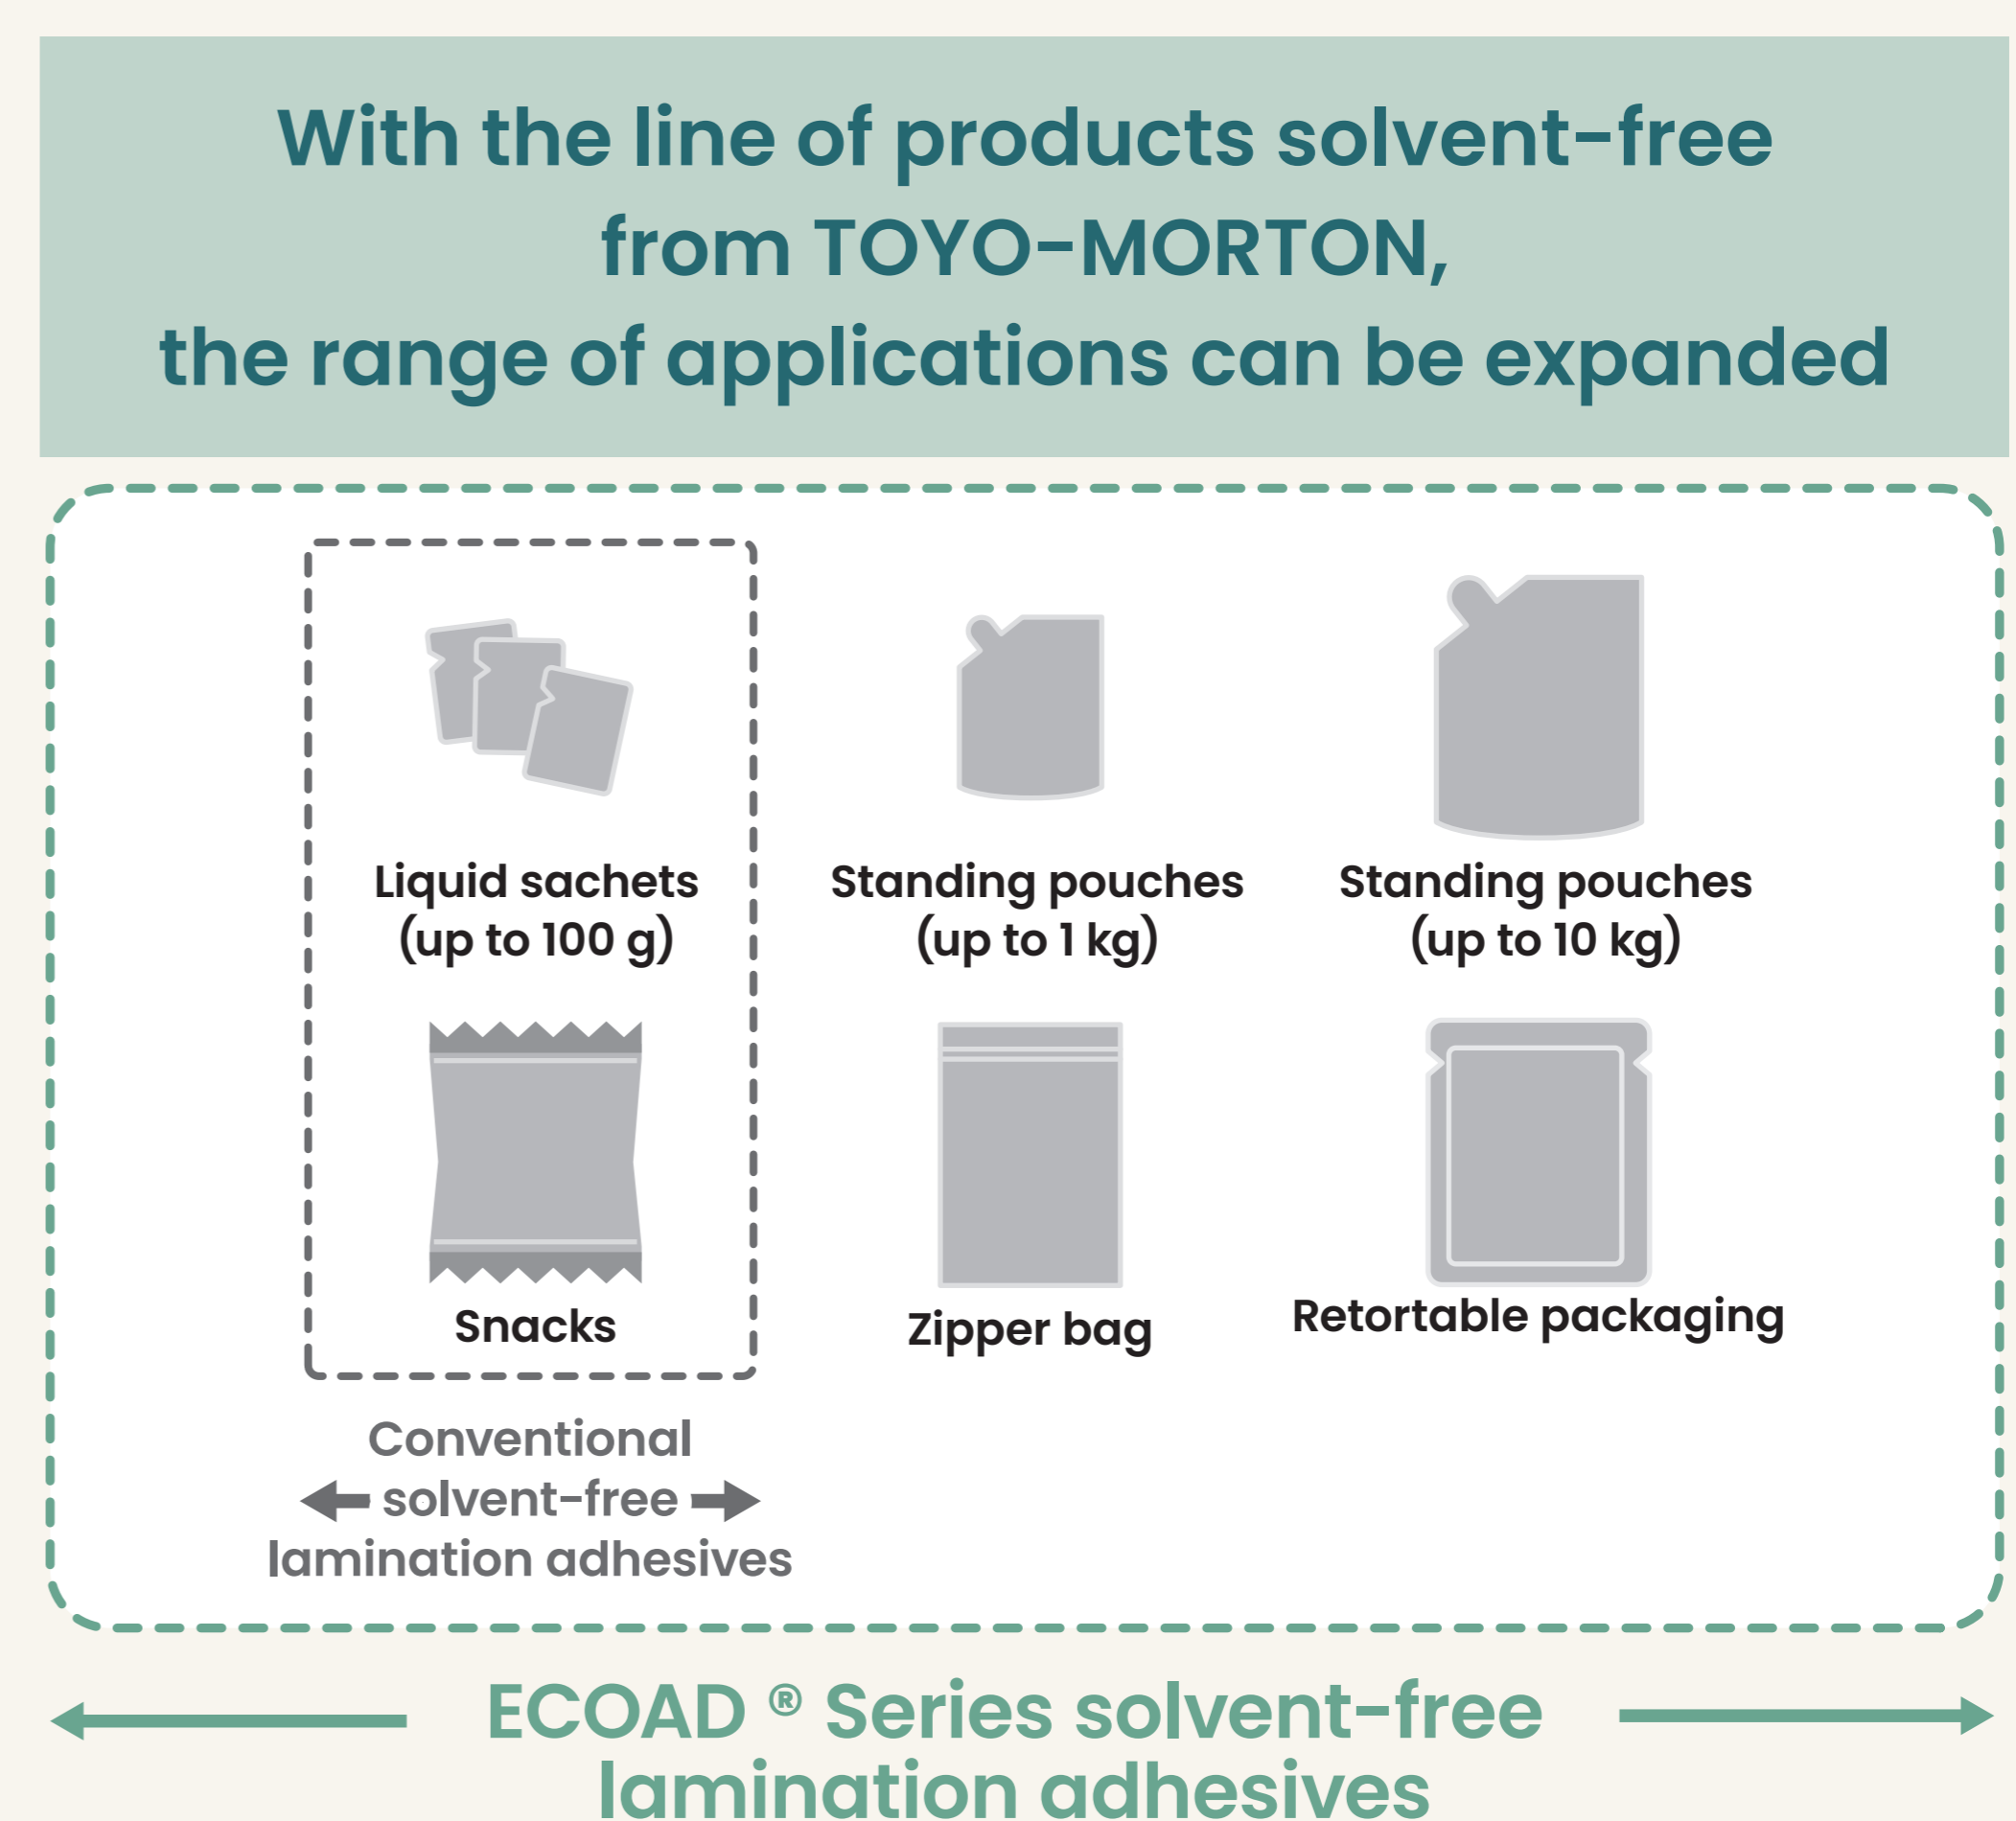

- A design concept that pursues ease of use
- A lineup suitable for soft packaging, boiling, and retort applications

1.Reduces workload and makes it easier to use

2.Contributing to expanding the range of uses

Moving away from solvent-based lamination Zero VOC emissions
= Safe and secure

Product examples

1 EA-N6066 / 5526
(developing product)

- Ultra-low viscosity
- Aging at room temperature
- Biomass

2 EA-N373A / EA-N373B

No.1
in results

- High cohesiveness (web handling)
- Excellent initial appearance
- Biomass (EA-N6173)
